A dedicated Full-Stack Developer with a solid track record in developing dynamic web applications using Vue.js, Nuxt.js, Node.js, and other modern technologies. Passionate about clean code, user-centric design, and continuously enhancing my skill set. Proficient in both front-end and back-end development, with extensive experience in e-commerce, API development, and web scraping. Seeking to leverage my expertise in a challenging and growth-oriented environment.

Experience

Sumoue Agency
March 2024 - Sep 2024
Front end developer

- Developed Abber.co using Vue.js, Nuxt.js, and TailwindCSS
- Implemented API integrations, significantly reducing manual data entry tasks by 30%.

Self-employed
March 2021 - March 2024
Full-Stack developer

- I worked at Vuejs, Nuxtjs, TailwindCSS as front-end
- I developed using Nodejs, Express.js, prisma, Mongodb database and Supabase
